# Product Information

## Minimize Downtime and Maximize Efficiency!

**Reduce  
Production  
Cost!**

**SDM collet holders allow for quick, hassle-free adjustment of projection length.**

Simply rotate the guide ring until the target length is reached.

Can be adjusted while measuring height, allowing target value to be set with ease.

**Available in HSK, CAT, BT and UTS shanks.**

Complete catalog available at [www.nttoolusa.com](http://www.nttoolusa.com)

**Includes all the benefits and conveniences of our other collet holders.**

Compatible with center-through coolant.

Rust-proof coating ensures minimal runout throughout holder life.
